

CTC in a Box program for nonprofit organizations

Bringing computer access to your community is easy and inexpensive

ReliaTech's Community Technology Center (CTC) in a Box program is a turnkey solution to providing public computers. ReliaTech, a Bay Area nonprofit computer service provider and refurbisher, provides the expertise to help you plan, and the technicians to install, setup, test, and maintain your community computer lab. And we think you'll be pleasantly surprised by how affordable our CTC in a Box is.

Your turnkey Community Technology Center includes

- Consultation to help you build the best CTC for your community
- Gold Star Certified Renewed Computers (desktop or laptop) with installed software package
- Mice, keyboards, and monitors for all desktop computers
- Network switch
- Simple, single-room cabling
- Peer-to-peer network
- Shared laser printer
- Shared internet connection
- Delivery, installation, and testing of all equipment
- Information, forms, and links to helpful members of the community

- Backup solution
- Scanner, color printer, speakers, video, etc.
- Customized software choices

The low cost

These prices are just a guide for a CTC with desktop computers. We will quote actual prices after a consultation and planning session.

5-computer CTC:	\$1,550
10-computer CTC:	3,075
20-computer CTC:	6,050

A CTC in a Box can help your community get better jobs, do homework, stay in touch with distant family members, and improve English language skills. The cost is low, and many funders will cover all or part of the cost. Call us today to have your CTC within days.
