

ARE YOU READY FOR MONSTER POWER?

WE HAVE IT FOR YOU

JUST IN - THE HP xw8000 WORKSTATION!

These monsters came from a major animation studio. You've seen what they can do on the big screen. Now you can own a piece of history — and a monster computer — for a fraction of the original price.

These Gold Star Certified Renewed Computers start with this minimum specification:

- Dual Intel Xeon processors running at a blistering 2.8 GHz
- Up to 12 GB of RAM
- Room for 5 internal hard drives
- Ultra 320 SCSI and Ultra ATA Interfaces
- Gigabit Ethernet
- 6 USB 2.0 and 2 Firewire (IEEE 1394) Ports
- PCI-X, PCI, AGP 8X expansion slots (6 total)

These systems are great game systems, content creation platforms, and servers.

Your system is built to order – just the way you like it.

Start with one of these suggested configurations, then add memory, hard disks, accessories and software to build your dream machine at a dream price.

Start with one of these great configurations.
